Engineering and Naval  
Architecture, University of  
Zagreb, Ivana Lučića 5, 10000  
Zagreb, Croatia

### **Message from the Guest Editors**

We are inviting submissions to the *Energies* Special Issue on ‘*Advances in Diagnostics and Prognostics of Green Hydrogen Production Technologies*’.

The durability of green hydrogen production technologies is one of the most significant challenges for their wider commercialization.

Further progress and the realization of the expected scientific contributions of novel and original scientific papers on this very attractive topic should certainly represent a great challenge and motivation for researchers in this field.

Deadline for manuscript  
submissions:

**10 September 2024**

Aerospace Engineering,  
University of Roma Sapienza, Via  
Eudossiana 18, 00184 Roma, Italy

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Engineering (miscellaneous)*)
