### Message from the Guest Editor

This Special Issue aims to gather manuscripts that identify trends, and new, high-quality theoretical, methodological, or practical approaches focusing on this topic. Manuscripts using, e.g., multi-criteria analysis, spatial analysis, financial analysis, and cluster analysis are especially welcome. Conceptual and empirical papers are invited from scientists, statisticians, economists, and environmentalists that deal with various economic, environmental, management, and other aspects of achieving affordable and clean energy in the near and distant future.

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Engineering (miscellaneous)*)
