Message from the Guest Editor

We would like to invite you to contribute to a Special Issue of the *Energies* journal on the topic of “Alternative and Emerging Cooling and Heating Technologies”.

This Special Issue will be the first multidisciplinary edition that brings together cutting-edge original research into alternative and emerging cooling and heat technologies on all levels of maturity and comprehensive review papers discussing the engineering and technical merits of these technologies in supporting a low carbon economy while being fit for current and future use.

Each submission will undergo a formal peer review process. Submitted manuscripts should not have been published previously. Please respond to this invitation at your earliest opportunity.

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
