Decoupling Economic Growth from Energy Use: Transition to the Low Carbon Economy

Guest Editor:

Prof. Dr. Adel Ben Youssef

GREDEG-CNRS, University Côte d'Azur, 250 Rue Albert Einstein, 06560 Valbonne, France

Deadline for manuscript submissions:

closed (31 January 2022)

Message from the Guest Editor

To contribute to the ongoing debate on how to enhance sustainable and green growth, the proposed special issue welcomes papers on green growth and decoupling economic growth from energy use. In this matter, any proposed innovative solutions to shift toward green growth, or the ways how to decouple economic growth from carbon emissions are especially welcomed.

- Green Growth
- Low Carbon Economies
- Decoupling
- Economic Growth
- Energy Use
- Renewable Energies
- Sustainable Energy Consumption
- Clean Energy Demand
- Environmentally-friendly technologies
- Innovation

Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
