### Message from the Guest Editors

Dear Colleagues,

This Special Issue will deal with economic impacts of renewable energy sources deployment. Topics of interest for publication include, but are not limited to:

- Economic effects of deployment of renewable energy sources;
- The role of green economy in sustainable development;
- Policies and incentives promoting development of renewable energy sources;
- The role of renewable energy in energy import dependency;
- Institutional and financial barriers in renewable energy development;
- The effects of renewable energy development on energy prices;
- The impact of modern ICT in renewable energy deployment.

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compindex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Control and Optimization)
