## Global Challenges in Energy Markets: Economics, Technology, and Policy

Guest Editors:

**Dr. Aleksandra Komorowska**

Mineral and Energy Economy  
Research Institute of the Polish  
Academy of Sciences, 31-261  
Kraków, Poland

**Prof. Dr. Jacek Kamiński**

Mineral and Energy Economy  
Research Institute, Polish  
Academy of Sciences, 31-261  
Kraków, Poland

Deadline for manuscript  
submissions:

**closed (10 November 2022)**

### Message from the Guest Editors

We would like to cordially invite you to submit your manuscripts to our Special Issue, entitled Challenges in Energy Markets in Poland: Economics, Technology, and Policy.

The Polish economy faces numerous regulatory, technological, and economic challenges resulting from global trends towards low-emission economies, increasing prices of fossil fuels and EU emission allowances, increasing investment expenditures required for energy transition, higher share of intermittent technologies, energy and transport decarbonization, and developing new strategies and frameworks (e.g., for production of green hydrogen, fleet electrification, or energy storage). In this context, the Special Issue aims to collect original research or review articles on the current and future challenges in energy markets in Poland. In particular, we encourage you to submit papers on the following topics:

Energy transition; Decarbonization; Energy policy; Energy market; Energy economics; Power systems; Electricity prices; Renewable energy sources; Energy storage; Hydrogen economy; Demand response; Energy management; electromobility; Fossil fuels; Hard coal market; Natural gas market; Oil market.

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Engineering (miscellaneous)*)
