Economic and Organizational Insights and Challenges in Energy Industry

Guest Editor:

Prof. Dr. Katarzyna

Szczepeńska-Woszczyna

Department of Management,
Faculty of Applied Sciences, WSB
University, 41-300 Dabrowa
Górnicza, Poland

Deadline for manuscript
submissions:

closed (28 February 2022)

Message from the Guest Editor

This Special Issues related to strategic management, innovation management and financial management in terms of the use of energy are of particular importance. International scientific cooperation in terms of offering innovative and up-to-date solutions is also essential for the development and integration of different perspectives in energy resource management. Therefore, among others, the following questions are addressed in this Special Issue: What are the methods for energy cost optimization in enterprises? What are the current challenges and research trends in the pursuit of sustainable economics in the energy sector? What economic models of energy management are applied currently in both the energy sector and other entities, the operations of which are based on the use of energy?

Potential topics of the Special Issue:

- Economic, social and governance effects of climate uncertainty;
- Financial inclusion and energy;
- Sustainable energy management;
- Energy finance solutions;
- Financing innovations for sustainability;
- Energetic investment opportunities;
- Renewable energy finance;
- Concepts and challenges in energy finance in SMEs.

Prof. Dr. Enrico Sciubba

Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
