Vukosavic**

Prof. Dr. Vladimir Katic

Deadline for manuscript
submissions:

closed (29 April 2022)

Message from the Guest Editors

Dear Colleagues,

Power electronics converters are key devices in the modern transition to the digital economy in many fields, especially in electrical and electronics engineering, transportation, renewable energy, environment, etc. They are providing a flexible, efficient, reliable, and cost-effective power conversion line (interface) between different electrical systems or devices.

Topics of interest are: Power converters and devices; Automotive and industrial electrical drives; Electrical machines; Control and measurement; Smart power electronics; Power quality and Renewable and distributed energy sources.

The Special issue also select top papers from the ones presented at the 21st International Symposium on Power Electronics, held in Novi Sad, 27–30 October 2021 (Ee 2021). Do note, however, that submission to the Special Issue is different from the proceedings and should contain at least 50% new material compared with the previous conference version.

Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
