Convergence, College of
Creativity and Convergence
Studies, Seoul National
University of Science &
Technology, Seoul 01811,
Republic of Korea

Deadline for manuscript
submissions:

closed (31 October 2020)

Message from the Guest Editor

Dear Colleagues,

The global energy market is changing rapidly. It is very important to understand the social needs and public preferences for the energy policy and technology and reflect them fully in future energy policy and technology development. In this Special Issue, any kind of theoretical and empirical study that analyzes end users and general public's perceptions and attitudes towards energy technology and policy would be welcomed.

The focus of this Special Issue is on (but is not limited to):

- Public preferences for and their attitude toward energy policy and technology;
- Social (local or nationwide) acceptance of issues in the field of energy;
- Impact of an energy policy on end-user behavior;
- Applications of stated preference methods to energy policy research;
- Valuation of novel energy technology and people's willingness to pay for it;
- Identification of social needs for energy policy and/or technology.

Prof. Dr. Sung-Yoon Huh

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
