## Energy Systems Management: Economic, Social, Cultural, Legal and Environmental Components

Guest Editor:

**Prof. Dr. Olha Prokopenko**

Economics and International  
Economic Relations Department,  
International Humanitarian  
University, 65000 Odesa, Ukraine

Deadline for manuscript  
submissions:

**closed (30 June 2022)**

### Message from the Guest Editor

This Special Issue is focused on the wide-ranging topic of “Energy Systems Management: Economic, Social, Cultural, Legal and Environmental Components” and includes, but is not limited to, conceptual methodologies and practical approaches aimed at sustainable energy systems management. The topic of energy systems management is considered in the framework of sustainable development for the different scales of energy systems. This Special Issue invites high-quality research manuscripts covering a wide range of topics related to artificial intelligence, brain–mind energy, climate protection, electromobility, energy economics, energy efficiency, energy forecast, energy management, energy marketing, energy optimization, energy policy, energy poverty, energy security, energy services affordability, energy systems development, energy systems modelling, green energy, greenhouse effect, industry 4.0, intelligent energy management system, knowledge economy, ontology of energy, renewable energy, space energy, strategic management, sustainable smart city, sustainable smart systems, and technology assessment. Manuscripts on interdisciplinary research are especially welcome.

Department of Mechanical and  
Aerospace Engineering,  
University of Roma Sapienza, Via  
Eudossiana 18, 00184 Roma, Italy

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Control and Optimization)
