Design and Implementation of Renewable Energy Systems

Guest Editors:

Prof. Dr. Erol Kurt
Department of Electrical and Electronic Engineering, Gazi University, Ankara, Turkey

Dr. Jose Manuel Lopez-Guede
Department of Automation Control, University of the Basque Country, Vitoria, Biscay, Spain

Deadline for manuscript submissions:
closed (26 April 2024)

Message from the Guest Editors

This issue is devoted to the highly qualified selected papers of the 11th European Conference on Renewable Energy Systems (ECRES2023, ecres.net), which will take place in Riga, Latvia, in a hybrid format. This international event is expected to involve participants from more than 60 countries.

ECRES aims to bring together researchers, engineers and natural scientists from all over the world who are interested in the advancement of all branches of renewable energy systems. Wind, solar, hydrogen, hydro-, geothermal, solar-concentrating, fuel cell, energy harvesting and other energy-related topics are welcome.

Special Issue

Editor-in-Chief

Prof. Dr. Enrico Sciubba
Department of Mechanical and Industrial Engineering, University Niccolò Cusano, 00166 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.
Journal Rank: CiteScore - Q1 (Control and Optimization)
