## The IMTech 2021 Innovative Mining Technologies

Guest Editors:

**Dr. Dariusz Prostański**

KOMAG Institute of Mining  
Technology, 44-101 Gliwice,  
Poland

**Dr. Bartosz Polnik**

KOMAG Institute of Mining  
Technology, Gliwice, Poland

**Dr. Jarosław Tokarczyk**

KOMAG Institute of Mining  
Technology, Gliwice, Poland

Deadline for manuscript  
submissions:

**closed (31 March 2021)**

### Message from the Guest Editors

This Special Issue related to the KOMTECH-IMTech Conference aims to provide an important contribution to technical development by presentation of the latest solutions that will increase production efficiency, improve work safety in mines, and reduce operational costs of mining plants.

The 21 International Scientific and Technical Conference KOMTECH-IMTech will be held in November in Szczyrk. The aim of the conference is to present the latest scientific, research, and technical achievements in the field of mining, especially focusing on occupational safety and health protection, exchange of knowledge and experience in the use of innovative techniques and technologies, as well as presentation of the latest achievements of manufacturers of machinery and equipment. Every year, the conference contributes to the integration of the scientific community with industry representatives, giving a chance for discussion and traditionally gathering a large group of people interested in the directions of development of safe and effective mining.

Department of Mechanical and  
Aerospace Engineering,  
University of Roma Sapienza, Via  
Eudossiana 18, 00184 Roma, Italy

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Engineering (miscellaneous)*)
