Deadline for manuscript
submissions:
closed (20 February 2021)

Message from the Guest Editor

Dear colleagues,

The Guest Editor is inviting submissions for a Special Issue of *Energies* on the subject area of "Advanced Polymer and Perovskite Solar Cells". In this Special Issue, we would focus on any relevant energy conversion applications based on organic and perovskite materials, which could promote mutual developments of both solar cell research areas. Topics of interest for publication include, but are not limited to the following:

- Organic solar cells
- Polymer solar cells
- Nonfullerene-based organic solar cells
- Nonfullerene-based polymer solar cells
- All polymer solar cells
- Organic-inorganic perovskite solar cells
- Inorganic perovskite solar cells
- Tandem solar cells
- Hybrid tandem solar cells
- Multi-junction solar cells
- Solar cell modules
- Large area solar cells
- Multi-functional devices
- Integrated devices

Special Issue

Editor-in-Chief

Prof. Dr. Enrico Sciubba
Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.
Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
