Recycling, Regeneration, and Reusing of Lithium-Ion Batteries

Guest Editor:

Prof. Dr. Siamak Farhad

Department of Mechanical
Engineering, University of Akron,
Akron, OH 44325-3903, USA

sfarhad@uakron.edu

Deadline for manuscript
submissions:

20 December 2021

Message from the Guest Editor

Dear Colleagues,

The aim of this Special Issue is to present state-of-the-art knowledge and technologies in the recycling, regeneration, and reusing of energy materials of lithium-ion batteries. This includes new recycling processes, new experiences in recycling lithium-ion batteries, recent government and policy-maker plans, new research and development investments in this field, current and future recycling needs, and recent advances in electrode and electrolyte-material regeneration and reusing. You are invited to send your papers for possible publication in the *Energies* journal.

Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and many other databases.

Journal Rank: CiteScore - Q1 (*Control and Optimization*)
