## Responsible Innovations for Sustainable Energy

Guest Editors:

**Prof. Dr. Justyna  
Chodkowska-Miszczuk**

Department of Urban and  
Regional Development Studies,  
Faculty of Earth Sciences,  
Nicolaus Copernicus University,  
Lwowska 1, 87-100 Toruń, Poland

**Dr. Andrzej Lis**

Department of Business  
Excellence, Faculty of Economic  
Sciences and Management,  
Nicolaus Copernicus University in  
Toruń, Toruń, Poland

Deadline for manuscript  
submissions:

**closed (31 December 2021)**

### Message from the Guest Editors

Dear Colleagues,

Innovations and corporate social responsibility (CSR) are commonly recognized among the key contemporary ideas in research and business practice. The concept of sustainable energy has been receiving more and more attention from both scholars and practitioners. The *Energies* journal defines sustainable energy as “a form of energy that meets our today’s demand of energy without putting them in danger of getting expired or depleted and can be used over and over again”. We are inviting researchers who are willing to contribute to the discussion on responsible innovations aimed at the development of sustainable energy solutions to submit papers related to this theme for publication.

Various types of articles are invited for publication, including original research (empirical) articles, case studies, review articles, and conceptual articles.

Dr. Justyna Chodkowska-Miszczuk

Dr. Andrzej Lis

Department of Mechanical and  
Aerospace Engineering,  
University of Roma Sapienza, Via  
Eudossiana 18, 00184 Roma, Italy

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Engineering (miscellaneous)*)
