Sustainability Assessment of Energy Technologies and Energy Systems and Their Contribution to the UN Sustainable Development Goals

Guest Editors:

Dr. Yolanda Lechon

Dr. Michael Belsnes

Dr. Janie Ling Chin

Dr. Valeria Jana Schwanitz

Prof. Dr. Lenny Koh

Dr. Gabriele Manella

Dr. Alessandra Landi

Dr. Francesco Rizzi

Prof. Dr. Peter Driessen

Deadline for manuscript submissions:

closed (15 April 2019)

Message from the Guest Editors

Dear Colleagues,

The purpose of this Special Issue is to discuss and reflect on the contribution that sustainability assessment methodologies can have in assessing and monitoring the progress towards the SDGs. It is intended to provide a forum for scientific progress on both the overall concept of life cycle sustainability assessment and its links with the SDG framework, as well as case studies on practical applications of the proposed methodologies and links to energy technologies and systems. Research papers on methodological issues, case study applications and complementary methodologies and research gaps to measure the missing identified interlinkages between sustainability assessment methodologies and the SDGs are welcome.

Dr. Yolanda Lechon
Dr. Michael Belsnes
Dr. Janie Ling Chin
Dr. Valeria Jana Schwanitz

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.
Journal Rank: CiteScore - Q1 (Control and Optimization)
