### Message from the Guest Editors

This Special Issue will gather new research results and future trends in the field of wind turbines, covering a broad range of topics of interest for publication but not limited to the following:

- Wind energy potential and forecasting
- Innovative design and optimization of wind turbines
- Modeling and numerical simulation of wind turbines
- Intelligent control of wind turbines
- Wind energy conversion efficiency
- Reliability and maintenance of wind turbines
- Integration of wind turbines in the built environment
- Energy management

Deadline for manuscript  
submissions:

**31 December 2021**

## Editor-in-Chief

### **Prof. Dr. Enrico Sciubba**

Department of Mechanical and  
Aerospace Engineering,  
University of Roma Sapienza, Via  
Eudossiana 18, 00184 Roma, Italy

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, AGRIS, Inspec, CAPlus / SciFinder, and many other databases.

**Journal Rank:** [CiteScore](#) - Q1 (*Control and Optimization*)
