

energies

an Open Access Journal by MDPI

Urban Thermodynamics: Technology, Environment, and Human Physiology

Guest Editor:

Dr. Masoud Ghandehari

Faculty of Urban Systems
Engineering, New York University,
Tandon School of Engineering,
Brooklyn, NY, USA

Deadline for manuscript
submissions:

closed (31 August 2021)

Message from the Guest Editor

This series seeks to converge the knowledge within this community into a collection of scholarly work on the state of the art of research and perspectives on global pacts and local regulations and how they are influencing the practice. This series of articles will be bound as a topical Special Issue and is intended to serve as a resource for students and scholars. It is also conceived as a starting point to establish a network leading to a symposium on the topic in the near future. We look forward to your contributions.

energies

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
