Circular Business Models and Circular Economy in Energy Production and Consumption

Guest Editors:

Prof. Dr. Inese Mavlutova

Department of Economics and Finance, BA School of Business and Finance, Riga, Latvia

Prof. Dr. Luísa Cagica Carvalho

Instituto Politécnico de Setúbal, Setúbal, Portugal

Deadline for manuscript submissions:

30 September 2024

Message from the Guest Editors

Dear Colleagues,

This Special Issue is focused on the wide-ranging topic of “Circular Business Model and Circular Economy in Energy Production and Consumption” and related to the implementation of the Green Deal Strategies in sectors of the economy and raw materials to ensure clean energy, sustainable industry, construction and renovation, sustainable mobility, pollution reduction, and climate action. This Special Issue covers a wide range of topical issues of sustainable natural resource management, circular economy, environmental management, and renewable energy. More specifically, the Special Issue will cover all the major and minor topics which help to find solutions for circular economy and sustainable development problems, such as climate protection, sustainable natural resource management, regulation around sustainable investments, energy economics, environmental economics, environmental management, inclusive nature of green transition, renewable energy, smart energy materials sustainability and development, knowledge economy, and management and financing of the green transition. Manuscripts on interdisciplinary research are especially welcome.

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
