## Smart Built Environment for Health and Comfort with Energy Efficiency

Guest Editors:

**Prof. Dr. Jin Woo Moon**

School of Architecture and Building Science, Chung-Ang University, Seoul 06974, Korea

**Prof. Dr. Geun Young Yun**

Department of Architectural Engineering, Kyung Hee University, Yongin 17104, Republic of Korea

**Prof. Dr. Jonghoon Ahn**

School of Architecture and Design Convergence, Hankyong National University, Anseong 17579, Korea

Deadline for manuscript submissions:

**closed (25 April 2022)**

### Message from the Guest Editors

Dear Colleagues,

The aims and scope of this special issue is located on the theoretical and practical methodologies that can build a futuristic foundation for better built environment without compromising both of the energy efficiency and human comfort. It can be investigated how to efficiently control indoor environment and provide optimized energy supply that have been studied in various energy-related fields. In particular, the smart solutions have been increasingly applied for the provision of the comfortable and efficient built environment. This special issue will cover the diverse & cutting-edge theories and technologies which are relevant to this innovative solutions. Topics include but are not limited to the following:

- Human comfort
- Occupant perception and behaviour
- Indoor environment
- Building energy and control efficiency
- Building systems
- HVAC system
- Lighting system
- Smart and dynamic envelope
- Renewable energy and passive systems
- IoT based building control

**Special** Issue

## Editor-in-Chief

### **Prof. Dr. Enrico Sciubba**

Department of Mechanical and  
Aerospace Engineering,  
University of Roma Sapienza, Via  
Eudossiana 18, 00184 Roma, Italy

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Control and Optimization)
