## Design and Application of Electrical Machines

Guest Editors:

**Prof. Dr. Ryszard Palka**

Department of Electrical  
Engineering, West Pomeranian  
University of Technology, 70-310  
Szczecin, Poland

**Dr. Marcin Wardach**

Faculty of Electrical Engineering,  
Department of Power Systems  
and Electrical Drives, West  
Pomeranian University of  
Technology in Szczecin, al.  
Piastów 17, 70-310 Szczecin,  
Poland

Deadline for manuscript  
submissions:

**closed (25 August 2021)**

### Message from the Guest Editors

Dear Colleagues,

The Guest Editors are inviting you to submit papers to a Special Issue of *Energies* on the subject of “Design and Application of Electrical Machines”.

Today, thanks to the application of highly efficient numerical algorithms running on high-performance computers, it is possible to design electric machines and entire drive systems faster and at a lower cost. At the same time, progress in the field of material science and technology enables the development of ever more complex motor designs and topologies.

Therefore, the purpose of this Special Issue is to contribute to the development of electric machines. We encourage scientists and application engineers to present the results of their research in the field of design and application of electric machines from the smallest ones with powers up to several watts, to the largest—at megawatt power. We are pleased to accept original research as well as review articles.

Industrial Engineering, University  
Nicolò Cusano, 00166 Roma,  
Italy

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Control and Optimization)
