## Electrical Machine Design for Emerging Technologies

Guest Editor:

**Dr. Epaminondas D.  
Mitronikas**

Department of Electrical and  
Computer Engineering, University  
of Patras, 265 04 Patras, Greece

Deadline for manuscript  
submissions:

**closed (1 December 2020)**

### Message from the Guest Editor

Dear colleagues,

The Guest Editor is inviting submissions to a Special Issue entitled “Electrical Machine Design for Emerging Technologies”.

Electrical machines have evolved into a key component of human technical civilization, actively supporting a wide range of processes and assisted by power electronics technology. Over the last decades, research in the field of electrical machines design has yielded significant outcomes, empowering the ongoing electrification and contributing to the shaping of our sustainable future. In the dawn of the fourth industrial revolution, emerging technologies create new challenges in this research area either by setting new requirements and seeking new design concepts or by providing novel development tools and advanced materials.

## Editor-in-Chief

### **Prof. Dr. Enrico Sciubba**

Department of Mechanical and Industrial Engineering, University Niccolò Cusano, 00166 Roma, Italy

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Control and Optimization)
