

Financing Renewable Energy in the Energy Market

Guest Editor:

Dr. Aneta Michalak

Department of Economics and
Computer Science, Faculty of
Organization and Management,
Silesian University of Technology,
44-100 Gliwice, Poland

Deadline for manuscript
submissions:

closed (20 September 2023)

Message from the Guest Editor

Dear Colleagues,

The Guest Editor is inviting submissions to a Special Issue of *Energies* on the subject area of “Financing Renewable Energy in the Energy Market”.

The aim of this Special Issue on “Financing Renewable Energy in the Energy Market” is to analyze the possibilities of financing investments in renewable energy sources, taking into account different financing models, i.e., models based on aid, private, and hybrid capital. It is also important to present the experience gained so far and to conduct a comparative analysis of the use of individual sources of financing investments in renewable energy sources and their costs in selected countries, in the European Union, and in the world. The analysis may also be conducted by type, with a breakdown by the sources of financing investments in:

- Wind energy;
- Biogas;
- Photovoltaics;
- Biomass;
- Hydropower;
- Geothermal;
- Transmission networks for renewable energy sources;
- Hybrid solutions.

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
