Economic and Technological Advances of Green Energy and Sustainable Development

Guest Editors:

Prof. Dr. Sergey Zhironkin

1. Department of Economics,
National Research Tomsk
Polytechnic University, 634050
Tomsk, Russia
2. Department of Economy and
Planning, Siberian Federal
University, 660075 Krasnoyarsk,
Russia

Prof. Dr. Michal Cehlar

Technical University of Kosice,
Faculty of Mining, Ecology,
Process Control and
Geotechnologies, 042 00 Košice,
Slovakia

Deadline for manuscript
submissions:

closed (31 March 2023)

Message from the Guest Editors

Dear Colleagues,

We are proud to present a new Special Edition of *Energies*—“Economic and Technological Advances of Green Energy and Sustainable Development”, which demonstrates the continuity from the previous Special Edition “Green Economy and Sustainable Development”.

The purpose of the Special Issue is to unite the efforts of researchers from all over the world to expand a pluralistic vision of the problems of economic and technological background of sustainable development. Today, it is important to join the efforts of researchers from different countries in order to accelerate scientific thought in economic, engineering and environmental vision of sustainable development.

We invite you to submit your original papers to this Special Issue on “Economic and Technological Advances of Green Energy and Sustainable Development” and look forward to receiving your outstanding research.

Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
