Green Energy Technology

Guest Editors:

Prof. Dr. Wei-Hsin Chen

Dr. Hwai Chyuan Ong

Prof. Dr. Shih-Hsin Ho

Prof. Dr. Pau Loke Show

Deadline for manuscript submissions:
closed (31 May 2021)

Message from the Guest Editors

This Special Issue will publish a comprehensive overview and in-depth technical research paper addressing recent progress in Green Energy Technology. Studies of advanced techniques and methods in Green Energy Technology are also welcome. Research involving experimental and numerical studies, recent developments, and the current state-of-the-art and emerging technologies in this field are highly encouraged.

- bioenergy
- solar energy
- wind energy
- marine energy
- geothermal energy
- hydrogen energy
- energy storage
- energy saving
- CO_2 capture and utilization
- thermoelectric generation
- thermodynamics
- heat transfer

Special Issue

Editor-in-Chief

Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.
Journal Rank: CiteScore - Q1 (Control and Optimization)
