Institute for Research in Technology, Comillas Pontifical University, 28015 Madrid, Spain

**Dr. José Pablo Chaves Ávila**

Institute for Research in Technology, Comillas Pontifical University, 28015 Madrid, Spain

### Message from the Guest Editors

In this Special Issue of *Energies*, research papers on topics related to the integration of distributed energy resources (DG, DS, EV, and DR) are welcome. From technologies to business models and software tools to evaluate systemwide, both operation and planning impacts of all aforementioned distributed resources will be well received. The focus of this Special Issue is how the combination of novel distributed resources with the nature and penetration of these business models heavily influenced by policy and regulation will shape the utilities of the future.

Deadline for manuscript submissions:

**closed (20 July 2020)**

Eudossiana 18, 00184 Roma, Italy

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Control and Optimization)
