Deadline for manuscript  
submissions:

**31 October 2021**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue will provide a comprehensive overview of the latest research and development in the area of ORC technology. Authors are encouraged to submit original research and review articles for the Special Issue. Themes include but are not limited to:

- Applications and energy sources;
- System design and optimisation;
- Working fluids (pure, mixtures, nanofluids);
- Turbines and volumetric expanders;
- Dynamic modelling and control strategies;
- Operational experience on prototypes;
- Novel/advanced cycle configurations;
- Domestic/multigeneration systems.

Dr. Muhammad Imran

Dr. Alison Subiantoro

Prof. Kyung Chun Kim

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, AGRIS, Inspec, CAPlus / SciFinder, and many other databases.

**Journal Rank:** [CiteScore](#) - Q1 (*Control and Optimization*)
