### Message from the Guest Editor

Dear Colleagues,

The papers in this Special Issue should analyze learning strategies and educational activities for the circular economy in the energy sector in graduate and post-graduate programs within the higher education context around the world. Reflections on the experience and main success factors in the learning strategy must be discussed. The papers should include a variety of topics surrounding sustainable energy and energy efficiency, amongst others.

- education for sustainable development
- energy
- learning
- teaching
- higher education

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Engineering (miscellaneous)*)
