

## Advances and Trends in Smart Energy Communities

Guest Editors:

**Prof. Dr. Pierluigi Siano**

Department of Management and Innovation Systems, University of Salerno, 84084 Salerno, Italy

**Dr. Hassan Haes Alhelou**

School of Electrical and Electronic Engineering, University College Dublin, Dublin 4, Ireland

Deadline for manuscript submissions:

**closed (31 December 2021)**

### Message from the Guest Editors

Dear Colleagues,

We would like to invite submissions to a Special Issue of Energies entitled “Advances and Trends in Smart Energy Communities”. The topics of interest include but are not limited to:

- Smart energy communities;
- Smart grids and microgrids;
- Smart electric transportation systems;
- Smart energy systems;
- Intelligent systems, solving methods, optimization and advanced heuristics;
- The modeling, planning, and operating of renewable energy resources;
- Business models for different electricity market players;
- Demand side management and demand response;
- The sizing, placement, and operation of energy storage systems and electric vehicles;
- Smart homes and building energy management;
- Electricity market, electrical power and energy systems;
- Microgrids and islanded networks;
- Smart cities, smart energy, and IoT;
- Modern power systems and renewable energy resources.

Aerospace Engineering,  
University of Roma Sapienza, Via  
Eudossiana 18, 00184 Roma, Italy

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Control and Optimization)
