## Thermal and Electro-thermal System Simulation 2020

Guest Editors:

**Prof. Dr. Márta Rencz**

Department of Electron Devices,  
Budapest University of  
Technology and Economics, H-  
1117 Budapest, Hungary

**Prof. Dr. Lorenzo Codecasa**

Department of Electronics,  
Information and Bioengineering,  
Politecnico di Milano, 20133  
Milan, Italy

**Prof. Andras Poppe**

Department of Electron Devices,  
Budapest University of  
Technology and Economics;  
Magyar tudósok körútja 2, bldg.  
Q, 1117 Budapest, Hungary

Deadline for manuscript  
submissions:

**closed (15 July 2020)**

### Message from the Guest Editors

Dear Colleagues,

As a follow-up to the 25th THERMINIC Workshop, held in Lecco in September 2019, a Special Issue of *energies* about thermal and multi-physical investigations electronics systems will be edited by Prof. Marta Rencz, Prof. Lorenzo Codecasa and Prof. Andras Poppe.

This Special Issue will target the presentation of the newest research results of thermal effects in electronics today, from characterization to through multi-physics simulation to cooling solutions and reliability assessment.

This special issue is not only collecting papers from the 25th THERMINIC Workshop, but also will containing papers from other scholars who interested in this topic. Papers that were presented at THERMINIC must be revised and contain at least 60% new material that has never been presented before.

Aerospace Engineering,  
University of Roma Sapienza, Via  
Eudossiana 18, 00184 Roma, Italy

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (Control and Optimization)
