

Transition to Sustainable Energy System for Smart Cities and Industries

Guest Editor:

Dr. Magdalena Wyrwicka

Faculty of Engineering
Management, Poznan University
of Technology, 60-965 Poznań,
Poland

Deadline for manuscript
submissions:

closed (25 January 2023)

Message from the Guest Editor

Dear Colleagues,

As a Guest Editor, I would like to invite you to submit your research papers to the Special Issue of *Energies* on the subject area of “Transition to Sustainable Energy System for Smart Cities and Industries”.

The aim of this Special Issue is to initiate a debate on the necessary activities related to the transition to sustainable energy systems in smart cities and industries. Case studies on specific solutions implemented in the aspect of sustainable development of energy systems, as well as the results of research on the existing state or concepts for the implementation of transformations, are intriguingly welcomed.

- sustainable energy system
- transition to sustainable energy system
- smart city
- smart industry sustainable energy system for smart city
- sustainable energy system for smart industry
- solutions supporting the transition to a sustainable energy system

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
