

Special Issue

Editorial Board Members' Collection Series: "Advances in Heat and Mass Transfer"

Message from the Guest Editors

We are pleased to announce a new Collection titled, "Editorial Board Members' Collection Series: "Advances in Heat and Mass Transfer"", which will be a collection of papers invited for publication by the Editorial Board Members. The aim of this Collection is to provide a platform for networking, communication, and publishing, and also to transfer modern knowledge between scholars in the research field of heat and mass transfer with a focus on heat transfer performance and heat transfer process enhancement. A fairly wide scope of research papers is planned that may cover experimental as well as numerical investigations and practical experiences associated with heat and mass transfer in various areas, e.g., power engineering, civil engineering, environmental engineering, mechanical engineering, chemical and process engineering, etc. The manuscripts published in the abovementioned Special Issue may deal with comprehensive overviews of the recent studies, as well as content, new data, and know-how toward bridging the knowledge gap in sophisticated engineering applications in heat and mass transfer.

Guest Editors

Dr. Artur Blaszczyk

Prof. Dr. Belal Dawoud

Prof. Dr. Kyung Chun Kim

Deadline for manuscript submissions

closed (31 December 2023)

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
