

Special Issue

Sustainable Building Energy and Environment: 2nd Edition

Message from the Guest Editor

This Special Issue will be an important channel of information and research findings concerning energy sustainability, indoor air quality, and wellbeing for newly designed, existing, and historic buildings. Of particular interest are papers regarding the recent developments and applications, as well as the refurbishment and retrofitting solutions, of sustainable lighting (natural and/or artificial) and effective/efficient natural and mechanical ventilation, as well as control systems and environmental monitoring, combined with simulations of building and plant systems, thermal comfort, wellness, and indoor air quality.

Guest Editor

Dr. Carla Balocco

Department of Architecture (DiDA), University of Florence, Via
Mattonaia 14, Firenze, Italy

Deadline for manuscript submissions

29 August 2025

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
