

## Special Issue

# Advancements in Energy Systems and Thermal Management for Sustainable Buildings

### Message from the Guest Editors

I am pleased to announce that, together with the Editorial Team of *Energies*, we are preparing a Special Issue, entitled "Advancements in Energy Systems and Thermal Management for Sustainable Buildings". Therefore, I cordially invite you to submit your original research articles for publication in our upcoming Special Issue. The main theme of this Special Issue covers comprehensive and up-to-date knowledge in the field of energy management, thermal protection, and thermal-humidity phenomena in buildings, and we intend to explore and exchange knowledge in the field of progress in energy systems and energy management in buildings. Through a collection of scientific articles, reviews, and case studies, this Special Issue aims to shed light on the latest achievements in the field of broadly understood building energy, including renewable energy sources, building management systems, and modern technological solutions, including numerical modeling. The editors of this Special Issue welcome contributions toward the scientific discussion and guarantee a thorough review of each submitted article.

---

### Guest Editors

Prof. Dr. Grzegorz Nawalany  
Dr. Pawel Sokolowski  
Prof. Dr. Sabina Angrecka

---

### Deadline for manuscript submissions

closed (27 December 2024)

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

### Editor-in-Chief

Prof. Dr. Enrico Sciubba  
Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
