

## Special Issue

# Advancements in Catalytic Conversion of Biomass into Biofuels and Chemicals II

### Message from the Guest Editors

The goal of this Special Issue is to publish both recent innovative research results, as well as review papers in the area of bio-based products and fuels on the following topics of interest. If you would like to contribute a review paper, please contact one of the editors to discuss the relevance of the topics before submitting the manuscript. **Topics of interest include but are not limited to:**

- Production of value-added products and biofuels from biomass (biomass pretreatment, thermo-chemical conversion, etc.).
- Advances in the applications of carbohydrates and lignin components derived from biomass.
- Recovery of different sugars from biomass through any chemical/physical/combined treatment strategies.
- Chemical/physical pretreatment of biomass using conventional and advanced strategies.
- Bio-fuel productions from different non-edible feedstocks in the presence of either biological or chemical catalysts.

### Guest Editors

Prof. Dr. Tae Hyun Kim

Department Materials Science and Chemical Engineering, Hanyang University, Ansan 15588, Gyeonggi-do, Republic of Korea

Dr. A.V.S.L. Sai Bharadwaj

Department of Materials Science and Chemical Engineering, Hanyang University, Ansan 15588, Gyeonggi-do, Republic of Korea

### Deadline for manuscript submissions

closed (20 June 2024)

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

---

### Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
