

Special Issue

Energy, Environment, and Social Effects Obtainable Through the Renewable Energy Community Institution

Message from the Guest Editors

We are inviting all researchers who are interested in the development of the technical and scientific aspects of RESs to contribute to this Special Issue, with original research and review papers. The following topics are particularly suitable to this Special Issue:

- Modelling energy exchanges in the RECs with the following goals:
 - optimizing the environments benefits;
 - optimizing the social impact of the RECs, e.g., job opportunities;
 - increase the energy sparing and consequent expense reduction for common users;
- Introduce new forms of RESs, as well their evaluations of the environmental, energetic, and social effects;
- Activate systems to increase the awareness of people regarding the possibilities opened by these initiatives;
- Increase the consciousness of people regarding the problems that the RECs are attempting to solve;
- Supply job opportunities.

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba
Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
