

## Special Issue

# Advances in Energy Storage Systems for Renewable Energy: 2nd Edition

### Message from the Guest Editors

This Special Issue will focus on energy storage devices for renewable energy, and we therefore invite papers on innovative technical developments, reviews, case studies, and analytical as well as assessment papers from different disciplines which are relevant to the energy storage technologies. The topics of interest cover a wide range of subjects in energy storage research including batteries, LAES, CAES, pumped hydro storage, hydrogen technologies, supercapacitors, power-to-gas technologies, hybrid energy storage, and others. Keywords

- renewable energy
- energy storage
- liquid air energy storage
- compressed air energy storage
- pump hydro storage
- hybrid energy storage
- thermal energy storage
- modelling
- simulation
- power-to-gas hydrogen
- electrolysis
- battery and ultracapacitor
- environmental impact

---

### Guest Editors

Dr. Marcin Wołowicz

Prof. Dr. Krzysztof Badyda

Prof. Dr. Piotr Krawczyk

---

### Deadline for manuscript submissions

25 September 2025

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

---

### Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University  
Niccolò Cusano, 00166 Roma, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

CiteScore - Q1 (Control and Optimization)
