

Special Issue

Advances in Greenhouse Gas Emission Mitigation in Times of Global Energy Crisis

Message from the Guest Editors

For the Special Issue of *Energies* on “Advances in Greenhouse Gas Emission Mitigation in Times of Global Energy Crisis”, we are seeking original research studies that include, but are not limited to, the following topics:

- New developments in the decrease in the energy demand in the built environment in the short term;
- New low-emission mobility solutions, allowing for rapid improvements in sustainable movement of passengers and freight;
- New technologies for the fast decarbonization of energy-intensive industries.

Guest Editors

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief
