

Special Issue

Insulating Materials for Future Power Systems: Performance Analysis, Defect Detection and Condition Assessment: 2nd Edition

Message from the Guest Editors

In this Special Issue, we call for papers which focus on the fabrication, performance analysis, deterioration mechanism, defect detection, and condition assessments of new electrical materials. We welcome researchers to contribute original research, brief research reports, and review papers for this research topic.

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief
