

Special Issue

Fuzzy Decision Support Systems for Efficient Energy Management

Message from the Guest Editors

This Special Issue aims to present and disseminate the most recent advances related to the numerical modeling of efficient energy management using Fuzzy Decision Support Systems (FDSS). Topics of interest for publication include but are not limited to the development of FDSS to energy efficiency and energy management in construction, mobility, industrial processes, materials, manufacturing, environmental processes that include water, air and soil resources, exploration, exploitation, conversion, supply of energy resources, etc.

Guest Editors

Dr. Jelena Kilić Pamuković

Faculty of Civil Engineering, Architecture and Geodesy, University of Split, 21000 Split, Croatia

Dr. Katarina Rogulj

Faculty of Civil Engineering, Architecture and Geodesy, University of Split, 21000 Split, Croatia

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba
Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
