

Special Issue

Energy Markets and Energy Economy

Message from the Guest Editor

Topics of interest for this Special Issue include the following:

- Energy market structures and dynamics;
- Energy market price prediction;
- Economic implications of high renewable energy penetration;
- AI and energy economies;
- Economic impact of sustainable energy policies and regulations;
- Behavioral economics in energy consumption;
- Energy market volatility and risk management;
- Carbon trading and energy economics;
- Energy markets and the circular economy;
- Energy efficiency and environmental economics;
- Energy transformation and carbon emission for economic sectors;
- Green technology and emissions.

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief
