

Special Issue

Energy Efficiency and Sustainable Business Growth Based on CSR and ESG Standards in the Post-COVID Era

Message from the Guest Editors

This Special Issue seeks unpublished, high-quality empirical or theoretical research papers that focus on but are not limited to the following topics:

- Future perspectives on the development of energy technologies
- Role of eco-innovation in the facilitation of Sustainable Business Performance
- Sustainable Development Goals and Sustainable Performance of Businesses
- Energy efficiency improvements and sustainable business growth
- Investment in Green technology and Sustainable Business Performance
- CSR and COVID-19
- Adoption of CSR activities in developed and developing
- CSR as a Driver where ESG Performance will Ultimately Matter
- Sustainable Business Model Innovation
- Financial Stability in Companies with High ESG scores

Guest Editors

Dr. Konstantina Ragazou

Dr. Alexandros Garefalakis

Dr. Dimitrios Katsaparakakis

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba
Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
