

Special Issue

Review of Geothermal Energy Production

Message from the Guest Editor

We are pleased to announce that we are seeking submissions for a Special Issue entitled "Review of Geothermal Energy Production", which will be published in the "*Energies*" journal. Geothermal energy stands as a pivotal player in the transition towards sustainable and renewable energy sources. This Special Issue aims to comprehensively explore the latest advances in reservoir engineering, formation characterization, and optimal heat and electricity production from geothermal resources. We seek contributions that address the multifaceted challenges and opportunities associated with geothermal energy, providing a platform for cutting-edge research that can drive innovation in this crucial field.

Guest Editor

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
