

Special Issue

Advances in Green Hydrogen Production Technologies

Message from the Guest Editors

We are inviting submissions to the *Energies* Special Issue on ‘*Advances in Diagnostics and Prognostics of Green Hydrogen Production Technologies*’. The durability of green hydrogen production technologies is one of the most significant challenges for their wider commercialization. Further progress and the realization of the expected scientific contributions of novel and original scientific papers on this very attractive topic should certainly represent a great challenge and motivation for researchers in this field.

Guest Editors

Dr. Ivan Pivac

Faculty of Electrical Engineering, Mechanical Engineering and Naval Architecture, University of Split, R. Boškovića 32, 21000 Split, Croatia

Dr. Ankica Kovač

Faculty of Mechanical Engineering and Naval Architecture, University of Zagreb, Ivana Lučića 5, 10000 Zagreb, Croatia

Deadline for manuscript submissions

31 December 2025

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
