

Special Issue

The 15th International Conference on Thermal Engineering: Theory and Applications

Message from the Guest Editors

The ICTEA conference series was established in order to provide an opportunity for the professional development of scientists and engineers in the Middle East, including the Gulf region and North Africa. The need for such development persists, despite the strong commitment of regional governments to improving undergraduate education and to building research capabilities in institutions of higher learning. Until recently, attracting highly motivated academic staff to advance research agendas and to make significant contributions to GDP growth were not a top priority. However, owing to the foresight of regional leaders, higher education in this part of the world is starting to change. Nonetheless, the fact remains that highly skilled scientists and engineers in the region who are dedicated to research must often seek work abroad in academic and research institutions to develop themselves professionally. This year's conference will be held in Tashkent, Uzbekistan, in collaboration with Tashkent Davlat Transport University in Uzbekistan and Toronto Metropolitan University in Canada. This Special Issue will mainly collect papers from the ICTEA conference.

Guest Editors

Prof. Dr. Ziad Saghir

Department of Mechanical and Industrial Engineering, Toronto Metropolitan University, Toronto, ON M5B 2K3, Canada

Prof. Dr. Mohammad Mansur Rahman

Department of Mathematics, College of Science, Sultan Qaboos University, Al-Khod PC 123, Muscat, Oman

Deadline for manuscript submissions

14 September 2025

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
