

Special Issue

Trends and Prospects in Integration of Renewable Energy Sources and Electric Vehicles

Message from the Guest Editors

The aim of this Special Issue, titled "Trends and Prospects in Integration of Renewable Energy Sources and Electric Vehicles", is to delve deeply into the latest advancements, technical challenges, market opportunities, and policy directions in this field. This Special Issue serves as a platform for researchers, practitioners, and policymakers in related fields to exchange ideas and collaborate.

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following: TOPIC 1: Electric Vehicles Charging/Discharging Related Techniques
TOPIC 2: Other Sustainable Techniques for the Transit of Transport Energy

Guest Editors

Prof. Dr. Ruifeng Shi

School of Control and Computer Engineering, North China Electric Power University, Beijing 102206, China

Dr. Xinshou Tian

Institute of Energy Power Innovation, North China Electric Power University, Beijing 102206, China

Deadline for manuscript submissions

5 January 2026

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
