

Special Issue

Energy Poverty Alleviation, Renewable Energy Investment and High-quality Economic Development in Emerging Economies

Message from the Guest Editor

This Special Issue aims to study Energy Poverty Alleviation, Renewable Energy Investment and High-quality Economic Development in Emerging Economies. Topics of interest for this Special Issue include (but are not limited to):

- Renewable energy policies of the Emerging Economies;
- Assessment of the economic, social and environmental impact of renewable energy projects in Emerging Economies;
- Implementation progress and effect of technological innovation in the development and utilization of renewable energy;
- Financing and investment of renewable energy projects;
- International energy transformation cooperation, cross-border renewable energy cooperation and cross-border power trade
- Case studies and sharing of best practices

The research in this Special Issue has important theoretical and practical significance in promoting international cooperation in resources, industry, technology, finance, policies, and industry standards in the field of renewable energy, and building a clean, low-carbon, safe, and efficient international energy system.

Guest Editor

Dr. Fang Yang

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
