

Special Issue

Multidimensionality of Energy Transformation and Climate Neutrality

Message from the Guest Editors

The editors of this Special Issue invite authors to study economic dependencies and regularities and cause and effect relationships of various economic phenomena concerning a low-carbon economy. Research can cover both global and regional issues. Topics may also apply to urban and rural areas. Suggested topics include, among others, the following:

- Clean energy production and supply;
- Creating new markets in the field of low-carbon energy technologies;
- Resource recycling and reuse;
- Low-carbon research and innovation;
- Economic aspects of limiting emissions of harmful substances and CO₂ into the air;
- Energy management system;
- The relationship between building energy supply and demand;
- Institutions and business strategies for a transition to a low-carbon economy;
- Co-evolution of technical, environmental, and social systems;
- Research on the low-carbon industry;
- Low-carbon sustainable agricultural practices.

Guest Editors

Prof. Dr. Maciej Dzikuć

Faculty of Legal and Economic Sciences, University of Zielona Góra,
65-417 Zielona Góra, Poland

Prof. Dr. Arkadiusz Piwowar

Department of Economics and Organization of Food Economy, Faculty
of Economy and Finance, Wrocław University of Economics and
Business, 53-345 Wrocław, Poland

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba
Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
