

Special Issue

Advanced Nuclear Reactors: Designs, Technologies and Policies for 21st Century Global Challenges

Message from the Guest Editor

The purpose of this Special Issue is to provide a forum to publish work on advanced nuclear reactor designs along with creative policy approaches that can serve to span the gap between advanced reactor technologies and the large-scale deployment of these technologies. Of particular interest are contributions focused on regions looking to initiate civilian nuclear power programs, accelerate nascent programs or re-invigorate stalled programs. Therefore, papers on such topics as advanced nuclear reactors, nuclear power policy, energy policy, spent fuel management, energy and national security, nuclear export controls and international nuclear cooperation are invited to contribute to this Special Issue.

Guest Editor

Prof. Dr. David K. Gattie

College of Engineering; Senior Fellow, Center for International Trade & Security, Driftmier Engineering Center, University of Georgia Athens, GA 30602-4435, USA

About the Journal

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and Industrial Engineering, University
Niccolò Cusano, 00166 Roma, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

CiteScore - Q1 (Control and Optimization)
