

## Special Issue

# Intelligence of Energy and Power System

### Message from the Guest Editors

We cordially invite you to contribute a paper to this Special Issue of the open access journal *Energies*, entitled “Intelligence of Energy and Power Systems.” This issue aims to present recent developments in energy and power systems related to academia, research, and industries, among other platforms. This Special Issue contains intelligence of energy and power system and their related theme or application. I invite you to submit your research on these topics, in the form of original research papers and articles. The topics of interest for this Special Issue include, but are not limited to, the following:

- Intelligence in energy system, energy storage, energy source, energy conversion and energy environment;
- Intelligence in power system;
- Applications;
- Other related

## About the Journal

### Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.
